Facilitating the Healthcare Ecosystem

Our imaging equipments are well supplemented by advanced imaging modalities in KPJ hospitals, where students are able to assist with radiographic procedures for aid in thorough investigation by medical specialists. Only with these accuracy in diagnosis, holistic therapies and specific exercises are able to be delivered by the physiotherapy and occupational therapy students to the patients, to facilitate their road to recovery and guarantee the quality of patients' life, through comprehensive multidisciplinary training in the campus and in the hospitals. After numerous collaboration with partners in several regions in Southeast Asia, we have discovered that the standards we set for these programmes are well-regarded around the region.

Fee Packages

COURSE	LOCAL	INTERNATIONAL
Master of Physiotherapy	RM 28,000	RM 50,000
