BACHELOR OF GENERAL STUDIES (HONS)

The Bachelor of General Studies is a new academic programme offered by Universiti Teknologi Malaysia (UTM). The programme provides individuals with an opportunity to learn across five main areas. These include management, science, computing, technology and humanities, getting the best of higher education from all the faculties in UTM. Through a structured 4-year undergraduate curriculum, learners cultivate their lateral thinking to operate in a multidisciplinary environment. Therefore, this programme helps our undergraduates' progress in government agencies and enterprise, pursuing their postgraduate studies as well as leading the change in industries, communities and societies.

With its seven faculties and over 29 schools, academies, and centres of excellence, students gain access to the best of talent and expertise in Johor Bahru campus. They will also be involved in active learning, which necessitates and helps those students who are taking individual roles in the learning process. This reflects on the connection between theory and practice within and across disciplines.

This special academic programme also offers flexibility for working professionals who are keen to upgrade and improve their skills, creating an excellent lifelong learning pathway.

THE UTM BACHELOR OF GENERAL STUDIES FEATURES

- DO YOU PREFER FLEXIBLE LEARNING?**
